SUMMARY

Software Engineer specializing in React & Next.js, building scalable frontend systems and modern interfaces. Experienced in shipping production features, API integrations, and creating reusable component architectures.

TECHNICAL SKILLS

- ➢ **Frontend**: React.js, Next.js, JavaScript (ES6+), Tailwind CSS, Redux Toolkit, HTML, CSS
- ➢ **Backend (Working knowledge)**: Node.js, Express.js, MongoDB, JWT
- ➢ **Tools**: Git, GitHub, Postman, Visual Studio Code

WORK EXPERIENCE

Software Engineer (Intern)   **Sept 2025 – Present**

WeframeTech Solutions Pvt Ltd, Bangalore, India (Remote)
- • Delivered production-grade frontend features for client and internal projects using Next.js, building reusable UI components and integrating APIs via Directus CMS and server actions.
- • Owned the end-to-end frontend of the company blog, implementing listing and detail pages with server-side pagination, filters, and light/dark mode.

Application Development Associate   **Feb 2022 – July 2023**

Accenture Solutions Pvt Ltd, Gurugram, India (Remote)
- • Enhanced and maintained CI/CD pipelines for cloud-based infrastructure using Azure DevOps.
- • Earned Microsoft Azure Fundamentals (AZ-900) certification.

PROJECTS

Admin Dashboard (2026) | *Next.js, Auth.js*   (Live / Code)
- • Built an admin dashboard with Auth.js authentication and admin-only access control, enabling CRUD operations for users and products.
- • Added server-side pagination, search, and a responsive UI for efficient data management.

Real-Time Chat App (2025) | *Next.js, Socket.IO*   (Video / Live / Code)
- • Built a real-time one-to-one chat application with Google OAuth authentication using Auth.js.
- • Implemented instant text and image messaging using Socket.IO for real-time communication.
- • Added protected routes and designed a clean, responsive UI using Tailwind CSS and shadcn/ui.

Startup Directory Platform (2025) | *Next.js, Sanity*   (Live / Code)
- • A startup-style directory app with GitHub authentication, enabling users to submit and browse startup listings.
- • Implemented protected routes and a responsive UI using Tailwind CSS and Shadcn UI.

Full-Stack Recipe Sharing App (2024) | *MongoDB, Express.js, React.js, Node.js*   (Live / Code)
- • Built a fully responsive full-stack recipe sharing web app with secure CRUD operations.
- • Implemented user authentication with password hashing and profile update functionality.
- • Added features for rating, commenting, saving favorites, and custom autocomplete search.
- • Styled UI with Tailwind CSS for a clean, modern, and responsive design.

Furniture ecommerce react app (2024) | React.*js*   (Live / Code)
- • Built a fully responsive e-commerce frontend using React, React Router, and CSS Modules.
- • Implemented product search, filters, wishlist, cart functionality, and state management using Context API with useReducer.
